

From Digital Transformation to Organizational Agility

# OPERATIONAL EXCELLENCE & PROCESS TRANSFORMATION

SUMMIT

"Empowering professionals with the emerging trends in technology, business processes, and winning strategies."

Le MERIDIEN

14<sup>th</sup> – 16<sup>th</sup> June, 2023  
Cologne, GERMANY

## CONFERENCE OVERVIEW

From Frederick Taylor's *Principles on Scientific Management* in early 20th century to Jim Collins' *Good to Great* in early 21st century, ideas on improving organizational **Operational Excellence** have been evolving relentlessly. Both the theories such as Lean, Six Sigma etc. and technologies such as Digital, AI etc. have got a lot to offer to the industry and increasing the overall value of organizations.

The only thing that didn't change over the past century is continuous improvement in operational excellence and we don't see an end to it anytime soon. Through positive changes in performance, empowering the workers and maintaining customer satisfaction, as well as eliminating wastes and reducing risks, while completing deadlines and deliveries on time, we have a lot of ground to cover.

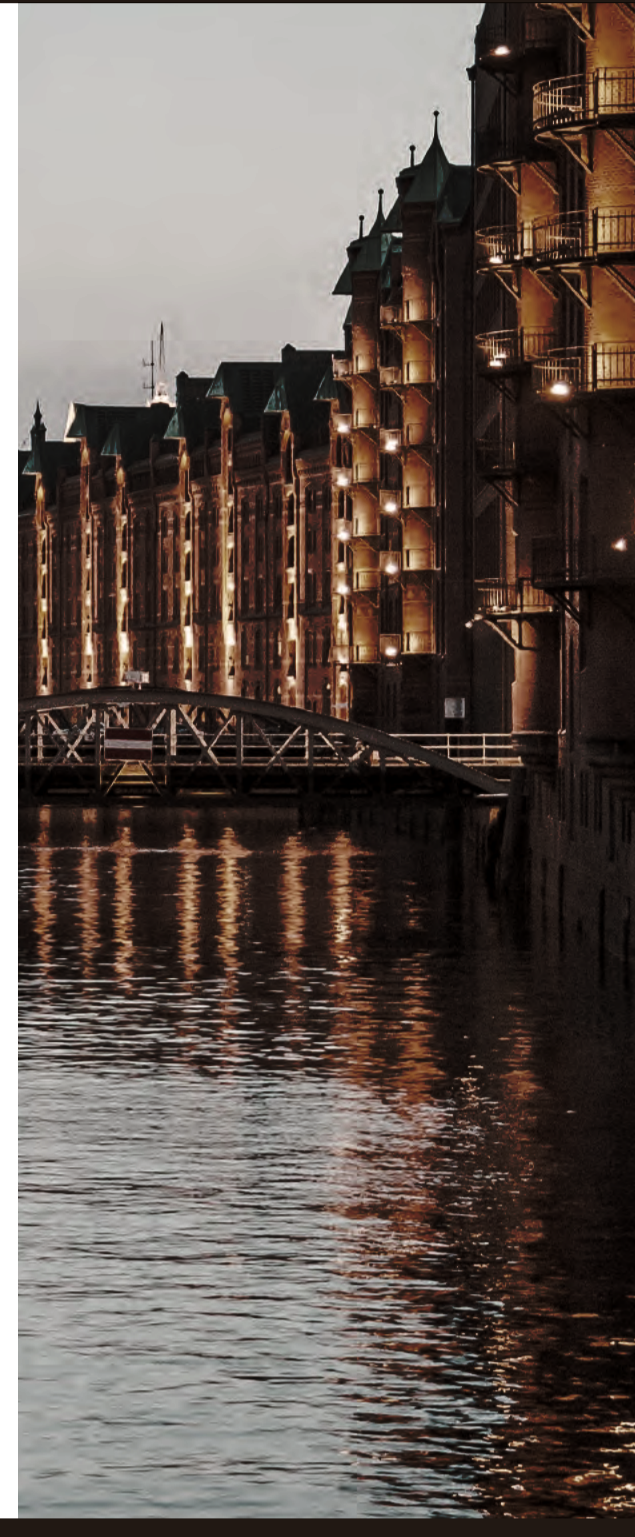

**But why hasn't Operational Excellence become more known to what it is today?**

**The "Lean" King is Dead! Long Live the "Digital" King!**

Can Modern Digitalization Practices replace Proven Lean strategies, that since more than half a century have been considered as the "King's Path" in operational excellence field of process, organization and personnel?

In a world with limited resources the appropriate usage of LSS in the circular economy enables to eliminate waste in materials and processes, reuse resources in an intelligent, sustainable manner and overall redefine "growth" as "improvement" in everything we do.

This Keynote Event will provide you with a platform to learn from the World leading brands, through a comprehensive blend of practical, real-world case studies, inspiring international keynote presentations, panel discussions, networking breakout sessions and more. If you are looking to stay competitive, then you need to be here.
